

Aaron Bergmann

Network Technician

a_bergmann@salemstate.edu • Salem, MA, US

Professional Summary

Hands-on IT student experienced with VLAN configuration, Aruba switch management, fiber patching, Linux, CLI tools, and network troubleshooting. Currently pursuing CCNA certification while supporting campus network infrastructure and maintaining E911 compliance.

Work Experience

Network Technician I – Salem State University

November 2025 – Present | Salem, MA

- Managed and completed tasks using Jira, including creating/resolving tickets for network issues.
- Activated network ports and configured VLANs on Aruba switches, including panel-to-switch patching.
- Gained experience with phpIPAM, Aruba OS, and Linux CLI tools (SSH, Vim, Grep).
- Performed fiber patching between core campus switches, creating and ensuring connectivity across buildings.
- Installed, removed, and maintained UPS units and batteries, following universal waste compliance procedures.
- Documented ~900 wall ports to support E911 compliance; maintained accurate network infrastructure records.
- Managed surplus network equipment: inventory, asset tracking, and preparation for shipping/disposal.

Media Services Technician – Salem State University

September 2024 – April 2025 | Salem, MA

- Performed systematic “tech checks” testing, and troubleshooting AV/presentation equipment in classrooms and lecture halls across campus
- Conducted firmware updates on Extron matrix switchers, replaced projector bulbs, and tracked projector hours during monthly inspections to maintain optimal performance.
- Acted as sole point of contact for the Media Services department during the evening, responding to urgent faculty and staff AV issues across campus.

Customer Service Representative – Shaws

September 2022 – August 2024 | Gloucester, MA

- Promoted from Frontend Clerk/Cashier within three months by demonstrating initiative, reliability, and leadership.
- Supervised front-end staff: assigned tasks, managed breaks, and ensured smooth daily operations.
- Operated registers, service desk, lottery, Western Union, and bill payment systems, handling transactions up to \$25,000.
- Assisted with store maintenance by conducting nightly safe/register reconciliation and filling operational gaps to improve efficiency.

Education
